

“I personally reviewed each class and found them to be exceptional. I liked the conciseness and the fact that they each dealt with one particular topic. The general quality is better than anything we’ve seen in the past. Videos were enjoyable to watch and got the point across.”

Deputy Chief Martin Wilkey
Pike Township Fire Department, IN

“The materials are wonderful. The objectives and instructor’s notes make it possible to present a more interesting class and keep student attention..”

Bill Maudlin, Director
Woodstock Ambulance, VT

“Your format works for me. I like the flexibility of simply giving the training to a student for self study or having an instructor available in a classroom setting where they can get as many CEU’s as they want with the skills practice.”

Darren Lovecchio
Monterey County Health Department/EMS, CA

“We just reviewed the materials. I had my EMTs watch it and they absolutely fell in love. It’s put together at a level they understand and will make our training program more complete.”

Bill Mollenburg, Director
Colville Confederated Tribes, WA
