

# AMERICAN SAFETY & HEALTH INSTITUTE

A member of the HSI family of brands

**“I would not have the thriving safety-training business that I have without ASHI! They make the materials affordable and easy to procure. 6 years ago I made the switch from American Heart to ASHI and have been completely satisfied with the program materials, DVDs and training support. They always respond to their instructors' needs in a timely manner. Thank you to all the staff!!”**

**Kira Miller, EMT & Owner  
CPR Training Solutions, CA**

**“The ASHI staff/ reps are extremely courteous, I could not be more pleased as this has been my experience every time I have called and placed an order over the years. Thank you.”**

**“Everyone at ASHI has been very responsive and helpful. Realizing that I work for a County Government system, our customer service representative has been very quick to respond to questions from our procurement personnel and to make the orders happen as fast as possible.”**

**“Keep doing what you are doing. Customer service is great!”**

**“Ordering on line is great and there are no problems.”**

**“The service I received was very helpful. I needed to return a product I ordered in error and then order the correct product. The service rep took care of my needs quickly. I didn't have to explain the situation over and over as needed with other businesses. Thank you very much.”**

**“Thanks for doing what you do and providing us with the tools we need to make our organizations the best they can be!”**

**“I have taught CPR for over 23 years and have always found ASHI's products and service to be superior to any other organization I have been affiliated with. Keep up the GREAT work!!!”**
