

# Emergency Care Training with HSI

Flexible and Effective CPR, AED, and First Aid Training to  
Make Our Workplaces and Communities Safer

# Comprehensive Training Program Library

Our portfolio of interactive and flexible programs, designed for adult learners, cover a wide range of emergency care topics, from basic first aid to CAPCE-approved advanced cardiac life support training.

Real-life scenario videos, many specifically created for workplace emergency care training, keep students' attention and help build the confidence to respond in an emergency.

## **Programs include:**

- Basic First Aid
- CPR and AED
- ACLS and PALS
- Advanced Bleeding Control
- Bloodborne Pathogens
- Emergency Medical Response
- High-Performance CPR
- Pediatric CPR, AED, and First Aid
- Basic Life Support (BLS)
- Wilderness First Aid
- Child and Babysitting Safety
- Emergency Oxygen

## Product Support

HSI's online store is always available for your purchasing convenience. In addition to HSI-produced programs and certification materials, our one-stop shop also carries the supporting products and training aids you need for your emergency care programs.

## **We offer:**

- Instructor Supplies
- Student Materials
- Manikins
- CPR Masks
- Feedback Devices
- Bleeding Control Kits
- AEDs
- Apparel and Logo Products

## Getting Started with HSI

Health & Safety Institute (HSI) makes it easy to become an authorized instructor or Training Center (TC) by giving you four paths to become an authorized instructor or TC with our ASHI, MEDIC First Aid, or EMS Safety brands. All provide certification solutions for individuals, businesses, and communities.

### **Reciprocity Using Your Current Credentials**

Instructors with current credentials from another training provider can qualify to teach our programs through HSI's reciprocity\* options: Reciprocity in kind or reciprocity from a combination of student-level certification plus teaching credentials.

### **First-time Emergency Care Instructors**

HSI offers two pathways to becoming a new instructor. Our blended Instructor Development Course combines an initial online learning segment followed by a single-day classroom session from an authorized ASHI or MEDIC First Aid Training Center. Or choose to attend an EMS Safety CPR and First Aid Instructor Course, conveniently offered regionally across the U.S.

### **Start Your Own Training Center**

Fill out a new Training Center application in addition to your new instructor application. Once you're approved, HSI's client services department will contact you to place your first order for your program package(s) and student materials. After your Training Center is activated, you will receive access to your TC portal, your online resource for managing your entire TC.

### **Teach at an Existing Training Center**

Contact client services or visit our website to find Training Centers in your area. When you have connected with a TC, the TC Director will need to submit your new instructor application and add you as a new instructor to their Training Center.

For assistance, links to instructor and Training Center application forms, or to see if you qualify for reciprocity, please contact our Client Services team.

800-447-3177 | [customerservice@hsi.com](mailto:customerservice@hsi.com)

\* Reciprocity is not guaranteed. Instructor Trainer (IT) candidates are required to complete an online Instructor Trainer Orientation course prior to finalization of authorization. Additional fees apply.

# Why Choose HSI as Your Training Provider?

<b>What You Get with HSI</b>	<b>Why It Matters</b>
<b>FLEXIBLE CERTIFICATION DELIVERY</b>	Satisfy your customer's needs with either printed or digital certification cards.
<b>CUSTOMER SERVICE AND TECH SUPPORT</b>	Staff available for questions and tech support from 8 a.m. – 8 p.m. (M-F, Eastern Time)
<b>EXPEDITED SHIPPING AND DELIVERY</b>	Unplanned, last-minute class? We offer options for 1-, 2-, and 3-day expedited shipping as well as 3-4 day ground shipping anywhere in the U.S.
<b>INSTRUCTIONAL APPROACH</b>	Whether you are new to emergency care or an experienced instructor or emergency medical professional, we have the real-life, scenario-based programs to suit your teaching style and capture your students' interest. Choose from instructor-led courses with a step-by-step format and dynamic instructional materials including skill guides, DVDs, and PowerPoint presentations that put you in control of your classroom.
<b>STUDENT-TO-INSTRUCTOR RATIOS</b>	Teach larger classes with our 10-to-1 and 12-to-1 student-instructor ratios.
<b>FLEXIBLE COURSE DELIVERY</b>	Bring course content to students through traditional classroom instruction or blended learning. For your convenience, video can be delivered using DVDs, streaming video, or our Desktop Video Player (no Internet connection needed).
<b>EXPAND YOUR BUSINESS WITH THE HSI FAMILY OF BRANDS</b>	Become your customer's go-to resource for workplace safety training, safety data sheet (SDS) management, and other environmental, health, and safety compliance needs with our referral program and integrated administrative platform.
<b>LOYALTY PROGRAM</b>	TCs can earn "Bot Bucks" to use towards the purchase of HSI-produced student materials.
<b>FREE BUSINESS MANAGEMENT SOFTWARE</b>	Your custom TC portal to our online platform integrates and organizes data, and automates back-office processing.
<b>WE UNDERSTAND YOUR BUSINESS</b>	As HSI sets no maximum number of TCs within a geographic region, we'll help you establish the TC that best suits your needs right where you live, whether you're a for-profit or corporate training center.
<b>NATIONAL TRAINING SOLUTION</b>	Your TC could qualify to participate in our network of vetted entities who provide onsite training at select businesses.
<b>APPROVAL AND RECOGNITION</b>	HSI's emergency care training and EMS continuing education programs are currently accepted, approved, or recognized as meeting the requirements of more than 5,400 state regulatory agencies, occupational licensing boards, national associations, commissions, and councils in more than 550 occupations and professions.

# What Our Customers Are Saying

*What's so great about HSI is that I can pick up the phone and speak to someone and get an answer, and not a 'we'll get back to you.' That's probably the most important thing that I found with HSI. I can talk to somebody."*

**Lesa West**  
*New Life CPR*

*The feedback I always get with teaching ASHI is, 'We get so much hands-on time.' The fact that students get to practice over and over in a short period of time; that repetition builds muscle memory and that experience is remembered."*

**Andriana Garbiso**  
*Guardian Elite Medical Services*

*We choose ASHI for a lot of reasons, and that you have remained affordable over time is an important part of that decision."*

**LeAnn Bravi, LPN, BS, M.Ed**  
*Hutchinson Community College*

*I have been a master instructor with HSI for almost 25 years. I love it and my students love it. The materials are current and easy to use, and students grasp the concepts much better. Teaching with HSI has truly been a great experience."*

**Dan Rosenthal, RN, Master Trainer**  
*Emeritus Workplace Nurses, LLC*
